Another history making weekend. President Joe Biden stepped down from the presidential race. This whole election year is one for the books. It doesn't matter what party you follow or belong to, it has been something and it's not over yet.

Can you believe this cooler weather we've been having, especially at night and the middle of July?! To me there's nothing better than sleeping with the windows open and enjoying fresh air and the sounds of nature.

What is "Howbeit"?

Two old houses in town that have been here forever are now gone. An old house behind the fire barn and the old big white two story house on Broad Street is now nothing but a memory.

Both had fallen into a sad state of disrepair. I don't remember much about the house behind the fire barn, other than at one time it was like two houses in one.

I can remember someone living in the front and the back. We delivered the Wichita Eagle newspaper both places many, many years ago.

The house on Broad street I always remembered as the

place the people from California owned. They would come spend the summers there and bring their kids. Mitchell, I believe, was the name. It was always such a fascinating old place.

The person(s) who tore down the old Honor Camp buildings, tore down these two houses also.

Hello! To all in area nursing and assisted living facilities; Hello, also, to all in area hospitals and rehab centers.

We offer our sympathy to the families of Cathy Carlson and Phillip Slater. We offer our sympathy to all others who lost loved ones this past week. May they all rest in peace.

Answer: Nevertheless, however.

What is the best way to get rid of trees growing in amongst Crepe Myrtle? I usually just cut them back every spring, except last year and this year.

I did finally get the trees cut back this summer and now the Crepe Myrtle are blooming.

I thought about putting something like tordon on the stumps, but I am afraid that will kill the flowers. Anybody have any suggestions?
