2025 HCHS ALUMNI SCHOLARSHIPS

Again, we find ourselves at the "Money Raising" part of the Scholarship Fund. The more we raise, the more scholarships we can give away! This will be the 23rd year of giving scholarships! The amount of money raised last year, almost put us over the \$500,000 pinnacle. This is why we do this...for our kids. So, give heartily!

Still Looking for Donations in 2025!

Due to health issues from Parkinson's Disease, Dirk is unable to collect the funds for the Alumni Scholarships again this year. However, he has challenged the community to raise more money than he ever did in his twenty years of securing funds for our students.

Dirk worked diligently to initiate and build the HCHS Alumni Scholarship program. Many scholarships have been made available to HCHS graduating students over the years, due to his efforts. Let's keep this program alive for our students and keep the dough rolling in!

We will appreciate all donations, large and small. Together, we can meet Dirk's challenge and raise more money than he ever did!

Insight/page 4

built near Olathe in 1903. Kansas' first pure circle barn was erected in Harper County the following year.

The majority of the 41 round or roundish barns in Kansas were built in the following decade. Shortridge's research shows no strong correlation between farm practices and where the barns were built in Kansas. Local influence appears to have played a key role in the construction of round barns. If you were in an area where one irregular barn was built, there's likely to be another one nearby.

That's likely how Marshall County became home to three circular barns in less than a decade. The first built a few miles east of Blue Rapids in 1906 and the last was constructed southwest of Marysville in 1914. The middle barn was finished in 1913 by Benton Steele, who was a prolific architect and builder of round barns from Indiana.

Charles and James Drennen commissioned the barn for their Hereford breeding operation, and it's still in use today. Herefords still graze along the bunks lining the perimeter nearly every day, and heifers still calve under the conical roof.

The most recent estimate of 24 round barns still standing in Kansas comes from Shortridge's article in 1999. Some are being preserved by owners on working farms and ranchers, others have found new life as event venues while others are being worn away by Kansas weather.

While red barns are the best known image of rural architecture, the brief building burst of round barns have left a legacy across the state as well.

"Insight" is a weekly column published by Kansas Farm Bureau, the state's largest farm organization whose mission is to strengthen agriculture and the lives of Kansans through advocacy, education and service.
