The Santa Fe Railway in Nebraska, 1970-1996

Warbonnets & Short Lines Revised Edition \$34.95  
Richard C. Kistler with Richard L. Schmeling and Michael M. Bartels

It all happened at Superior, Nebraska. This state-line town, known as the "Gateway to the South," has for more than a century been at the top of an enormous grain funnel that pours down into shipping ports on the Gulf of Mexico. In the past, this resulted in some intensive and interesting branch-line railroading. This is the story of the last quarter century of operations on the Santa Fe in Nebraska before it became part of today's modern BNSF system. Tax: \$2.45, Shipping \$2.80

Burlington Route: The Wymore Story ..... \$19.95

By noted railroad historian, Richard C. Kistler, is a classic account of Chicago, Burlington & Quincy Railroad operation in the southeast Nebraska region. Focusing on what was once the Wymore Division, headquartered at Wymore, Nebraska, it's a story of vintage steam locomotives, Zephyr passenger trains, and branch line motor cars. Each operating subdivision is covered with details about passenger and freight train traffic, motive power and facilities. However, this edition also features a total revision of the text and layout. More historic photos have been added, plus additional material which updates the story through both the Burlington Northern and Burlington Northern-Santa Fe eras. Tax: \$1.40, Shipping \$4.13
