## minds matter

Join Our Team.  
Make a Difference.

Minds Matter, LLC is a community-based agency dedicated to helping people with brain injuries live, work, and play within their communities.

Our talented, compassionate team members have helped individuals adjust to life following a brain injury for over 3 decades. Our approach to holistic functional therapy, collaborative care, and consumer advocacy has allowed thousands of Kansans to live independently and thrive within their communities. If this work sounds fulfilling to you, don't hesitate to apply for one of our brain injury therapist jobs in Kansas.

EMPLOYMENT

### Current Openings:

#### Physical Therapist

Physical Therapists carry out an individualized program of physical therapy including assessment, treatment, planning, implementation, education, and communication to maximize a consumer's progress toward achieving functional goals.

#### Physical Therapist Assistant

Physical Therapist Assistants evaluate, plan and provide therapeutic intervention as it relates to physical deficits in individuals with traumatic brain injury. Under the direction of the Physical Therapist, the Physical Therapist Assistant integrate employment, educational and independent living goals into therapy.

#### Speech Language Pathologists

Speech Language Pathologists provide treatment of speech and/or language disorders, such as problems with the actual production of sounds and difficulty understanding or putting words together to communicate ideas.

#### Occupational Therapists

Registered Occupational Therapists (OTR) offer an approach that focuses on the effects of injury on the social, emotional, and physiological condition of individuals. The OTR works with consumers to develop skilled therapy goals related to an individual's balance, motor skills, posture, and perceptual and cognitive abilities within the context of functional, everyday activities.

### Occupational Therapist Assistant

Successful candidates offer an approach that focuses on the effects of injury on the social, emotional, and physiological condition of individuals, and assists in meeting goals written by an evaluating therapist related to an individual's balance, motor skills, posture, and perceptual and cognitive abilities within the context of functional, everyday activities.
