

AMMS volleyball continued form page 7

an off night, that it happened before the (league) tournament.”

On Thursday, Oct. 1, AMMS hosted a non-league dual against Tyro Christian School. Results of that match can be found in a separate story.

The young Lady Jets also have a home triangular scheduled for Monday, Oct. 5, when Meadow View and Chetopa middle schools invade Milo Peterson Gymnasium. First serve is slated for 4 p.m.

AMHS vs. Oswego
Oswego won 25-6, 25-16.

Makayla Mustain totaled seven points and two aces to go along with seven digs and a hit. Ainsley Wheeler tallied four points, two aces, eight digs, two hits and an assist.

McKenna Matlock also registered four points, two hits and a dig. Teryn Ellsworth finished with three points, one ace, two digs and a team-high three hits, while Emily Lockhart chipped in three points and three digs and Daisy Dalton added one point.

In the “B” match, Ellsworth paced the attack with five points and three aces, while Emma Kinzle had a pair of aces and

three total points. Dalton and Lakyn Faller each had two points and Kira Adams and Matlock each contributed one.

Kinzle and Faller paced the team in digs with four and three, respectively.

AMMS vs. Edna
Edna won 25-10, 25-7.

Wheeler and Ellsworth scored four points apiece for AMMS, while Matlock tallied three and Mustain, Lockhart and Dalton each added two.

Dalton was the team leader in digs with six, followed by Lockhart with four and Mustain with three. Wheeler and Ellsworth each pounded a pair of hits with Lockhart adding another. Wheeler also notched two assists and Matlock added one.

Edna also won the “B” match 15-4, 15-8.

Kinzle smashed four aces and totaled five points for the match, while Dalton tallied three points and an ace. Ellsworth chipped in two points and Faller and Adams scored one apiece.

Dalton had four digs to take team honors, while Kinzle, Faller and Lockhart had two each.

Understanding How ‘Biosimilar’ Drugs Can Expand Access and Affordability

(StatePoint) Biological drug products (biologics) — which can be made of sugars, proteins, living cells, tissues, or a combination of these — are providing new options for patients with conditions such as diabetes, arthritis, chronic bowel diseases, macular degeneration, and multiple sclerosis, among others. In many cases, these therapies are helping shift treatment from acute care to long-term disease management. Doctors and evidence suggest that certain cancers are increasingly being managed as chronic conditions thanks to innovative biologics. But there is a catch: These drugs can be notoriously expensive, with or without insurance.

That is where biosimilars step in. Biosimilars are highly similar versions of complex biologics that deliver the same clinical benefits, expanding access to advanced therapies that might otherwise be out of reach. Biosimilars are designed to provide the same clinical benefits as their reference biologics, often at lower cost. Biosimilars delivered nearly \$20 billion in savings in 2024 alone, according to a recent analysis published in JAMA.

“Access isn’t just about price, it’s about supply, competition, and whether medicines actually reach patients. Biosimilars are the next wave of access and affordability, helping more patients access high-quality biologic treatments reliably and at lower cost,” says Chintu Patel, co-founder and co-

chief executive officer of Amneal.

Amneal, a U.S.-based biopharmaceutical company focused on complex medicines, is working to expand access to high-quality biosimilars. This comes at a time when more biologic medicines are losing exclusivity, creating a significant opportunity to offer patients more affordable options. With additional biosimilar launches expected over the next several years, Amneal is continuing to build momentum in this area. Amneal’s biosimilar portfolio reflects a focus on high-quality standards, reliable supply and broad patient access. For more information, visit Amneal.com.

As biosimilars become more widely available, patients may still have questions about how these medicines work. Here are some common questions about biosimilars and what patients should know:

How does the FDA determine whether a biosimilar can be approved?

Before approving a biosimilar, the U.S. FDA requires evidence that there are no clinically meaningful differences from the reference biologic medicine in terms of safety, purity and effectiveness.

What does it mean if a biosimilar is not designated as “interchangeable”?

An “interchangeable” designation relates to how a biosimilar

Performance Public Hearing Notice

The city of Neodesha, KS will hold a public hearing on Wednesday, October 14, 2026, at 2pm, in the City Hall located at 1407 N. 8th Street Neodesha, KS 66757 for the purpose of evaluating the performance of Grant No. 24-CR-011 which was for a Commercial Rehabilitation Project.

The proposed activities included the rehabilitation of a commercial building owned by Griffith Development, LLC, located at 519-525 West Main Street Neodesha, KS 66757. The proposed project consisted of window repair/replacement, exterior masonry work, roof replacement and miscellaneous appurtenances related to construction activities. All proposed activities were completed with a slight deduction in the overall masonry completed.

This grant was funded, all or in part, from the Kansas Department of Commerce, Small Cities Community Development Block Grant (CDBG) funds. All aspects of the grant will be discussed, and oral and written comments will be recorded and become a part of the City of Neodesha’s CDBG Citizen Participation Plan. Reasonable accommodations will be made available to persons with disabilities. Requests should be submitted to the City Clerk, 620-325-2828, by October 13, 2026.
